In identifying investment options to include in the Fidelity HSA Funds to Consider, Fidelity only considered Fidelity open-end mutual funds and open-end mutual funds offered by a limited universe of third-party fund companies that participate in an exclusive marketing, engagement, and analytics program with Fidelity for which they pay Fidelity an annual fee. The only third-party fund companies whose funds were eligible for this program were companies that generally have a track record of generating the strongest customer demand for their products from across Fidelity's customer channels and have been paying Fidelity a sufficient level of compensation for the shareholder servicing performed by Fidelity.
